TRS.

The MANTA TEAM RIDER SERIES brings a new level of performance to bodyboarding. Ride what the riders are riding!!!

TRS Boardbag Your full quiver.

Don't leave anything behind, just throw it all in. Wet pocket to keep your clothes dry.

2-3 Boards /Mesh drainage wet pocket /Fullsized front pocket /Backstraps /Carry strap /Handle /TRS style

 2-3 boards

TRS Backpack Pack everything.

We asked the team what they wanted in a backpack. They asked for a lot..... so we gave it to them.

28L /Padded Laptop pocket (15in) /iPod-sunglasses soft lined pocket /Dual Main compartments /Multi side stash pockets /Padded shoulder straps /Chest strap /Airmesh back padding /TRS style

 30L Capacity

TRS Bicep Coil. you aint getting away.

Manta's new TRS Bicep coil with all new styling is as good as it gets. Double swivels and super tough coil with a fully padded Bicep strap

Urban.

The MANTA URBAN RANGE gives you quality and style without the cost!

URBAN Boardbag Remove bag before riding board.

Now you have to buy a board that's good enough for your bag.

1-2 Boards /Mesh drainage /Backstraps /Fullsized fin pocket /Carry strap

 1-2 boards

URBAN Traveller OS in style.

Full Style Sandwhich construction bag to suit most inflight cabin limits.

 50L Capacity

URBAN Backpack Midnight border raids.

Super tough, super styled and super price. The perfect backpack for school, uni or midnight border raids.

25L /Elastic Laptop pocket /Dual Main compartments /Airmesh back padding

 25L Capacity

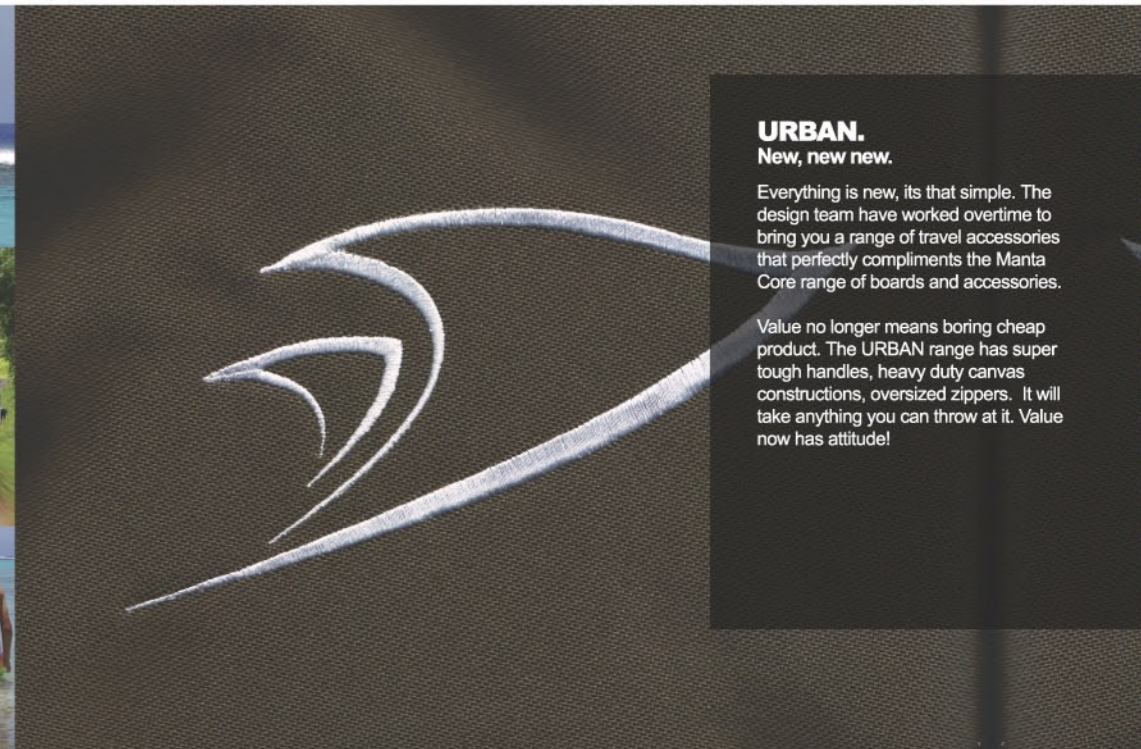

TRS. Because more is more.

The Team Rider Series was born out of the countless hours of R&D in and out of the water between our R&D crew and Team Riders. TRS boards and products give you features normally reserved for signature models.

Everything about this series has been tweaked, from nose bulbs and upgraded cores to softlined iPod pockets. All wrapped in TRS style to set it above the rest of the pack.

This season the team will be rockin the all new TRS range. Check Tom Smith here cruising the South Pacific with his new TRS RIDE.

Rider: Tom Smith
RIDE TRS 41, MANTA Blade Pro Fins

URBAN. New, new new.

Everything is new, its that simple. The design team have worked overtime to bring you a range of travel accessories that perfectly compliments the Manta Core range of boards and accessories.

Value no longer means boring cheap product. The URBAN range has super tough handles, heavy duty canvas constructions, oversized zippers. It will take anything you can throw at it. Value now has attitude!

Core Series.

The MANTA Core Series is where it all began, great value for performance. High quality materials, performance templates and full style.

Sonic

Lotsa boom without the \$\$\$

A great entry level board which will suit any age beginner. Providing 60mm thick foam under the rider for easy take off and paddling to develop wave riding abilities. A "real" performance template and quality materials make this the perfect beginners board.

Performance Template /Wrist Leash
1-3 foot

Drive

Affordable performance.

Entry level just went to the next level. Light strong and durable, an awesome entry to the core sport of bodyboarding. Channels give great wave holding allowing the avid beginner or summer weekend warrior to progress their skills to the next level.

Channels /Performance Template /Wrist Leash /Inner Rail
1-3 foot

Mist

Inner and outer beauty.

A specifically tailored template to suit the female rider. This board lacks nothing and is packed full of quality materials. Just for fun or for serious minded individuals, this board will take the challenge.

Channels /Female Specific Template
2-4 foot

The Blunt

Take it with style.

Light, powerful, and fast is how you like your board. Perfect for peaky beachbreaks this board is super manoeuvrable letting you rip into deep cutbacks and release tight spins. Shaken not stirred.

Channels /Custom Shaper Designed Template /Bat Tail
2-4 foot

Phantom

A touch of aggression.

A template that's been proven time and time again, the lightweight and solid materials used in the Phantom provide a board that can be ridden on beachies or reefs with confidence and aggression.

Channels /Custom Shaper Designed Template
2-4 foot

22 Years.

of Australian Design and Development

With 22 years and counting of bodyboarding knowledge, MANTA is at the cutting edge of technology, function and style. Our Team of Pro Riders and Technical staff have spent many hours designing, developing and testing our boards. We use the best materials and the best production methods to give you what we believe are the best boards in the world.

H2

Timeless.

Designed for the aggressive rider who charges all the time. A straight line template with super stiff BPP core and a tightly clipped crescent tail gives quick rail to rail transition, allowing for sharp gouges and snapping bottom turns.

Channels /Custom Shaper Designed Template /Nose & Tail Bumpers
2-5 foot

PRO XT

If bigfoot could...

Bigfoot would, without sacrificing ride or performance. 42, 44 and 46 inch with 65mm thickness - the Pro XT will float your boat.

Channels /Stringer /Custom Shaper Designed Template /Nose & Tail Bumpers /Rolled Bull Tail
2-6 foot

Model	Core	Slick	Rail	Deck	Size
SONIC	EPS	HDPE	60/40	7lb NCL 4.5MM	36"38"40"42"

PROXT	XPP	XPS	50/50	8lb STX 4MM	42"44"46"

TECH. because we care.
It's what we put into our boards that makes them so delicious. No cellulose here, just pure bodyboarding goodness.

PE 2.2lbs = Good Quality PE core.
PE 2.8lbs = Heavy Duty PE core.
BPP = The Original MANTA PP core, good strength and memory.
DOW = Top level PE core, preferred by many Pro riders.
XPP = Best core on the market, great strength and memory.
HDPE = High Density PE versatile slick.
XPS = MANTA Xtreme Projection Skin, excellent memory and projection.
SURLYN = Best Slick material available.
7lb NCL 4.5MM = Good Quality deck material.
8lb STX 4MM = The preferred deck material of all the best riders.
FTC STRINGERS = The all new Finger Tip Control Stringers provide better flex and control than standard flex or graphite stringers.
DIAMOND SLICK with SURLYN = MANTA's ultimate slick technology, amazing memory and recoil.

Base boardbag. perfect stash bag
Minimalist style with all the function. Back straps, carry handle and front stash pocket included

Board Sock. my board is comfy.
Perfect for small trips and keeping your board protected. Super soft.

BLADE Pro fins. comfort and power.
The all time classic Manta fin that is the most comfortable and durable fin on the market.

Clone fins. reinforced strength and speed.
Powerful, fast, responsive fins that will get you onto every wave with ease.

Towels, Wax + Plugs. be prepared.
You've got to be prepared for everything. Stylish towel, extra sticky wax and Manta's own clover plug.

TRS Bicep Coil. you aint getting away.
Manta's new TRS Bicep coil with all new styling is as good as it gets. Double swivels and super tough coil.

Wrist Coil. i'm stuck on you.
Performance on your wrist. Double swivels, performance extruded coil and fully padded wrist strapping.

Basic Coil. all time style.
Keep that board close with the classic wrist leash. Tough, durable and comfortable.

Padded fin savers. i still have my fins.
Nothing worse than losing a fin. Padded for extra comfort, these fin savers keep your fins on your feet.

Choices.
Choosing your perfect board is always totally up to you, but here are some guidelines that have helped us choose in the past:

- Chat to the staff at your local bodyboard store, about what board will suit you.
- If you're a little light for your height go smaller... A little heavier go larger in the size choices
- Choosing shape (template) is dependent on how you ride
- Bat tails have greater surface area so are great for getting more speed out of smaller waves that lack power
- Crescent or clip tails allow you to drag your legs in the water more than bat tails making the board more stable and easier to manoeuvre in heavier waves
- Think about what added features are important to you as a rider, and find the Manta bodyboard to fit those needs!
- Most importantly, get the board that makes you feel good. If you're confident on your board, you'll be confident in the water to do the tricks you want.

Warranty.
What you need to know cause you need to know.

MANTA Bodyboards have limited Warranties on faulty workmanship and materials ranging from 30 - 90 days from the date of purchase.

The Manta Warranty does not cover:

- Exposure to excessive heat. Heat can damage the shape and lamination of the board
- Creasing of the Deck or the Slick
- Water absorption
- Accidental or forceful damage to the board
- Over flexed or broken boards
- Damage caused by leashes or other accessories
- Dents or depressions from the rider or foreign objects

Claims without proof of purchase will not be recognized by Manta and repair or replacement costs and freight, will be the customer's responsibility. All Warranty Claims must be authorised by the manufacturer or their agent before forwarding for replacement or repair. Under this Warranty the Manufacturer has the option to repair or replace any Manta Bodyboard that shows faulty construction, this may alter the appearance of the board. Any Manta Bodyboard that is glued or repaired by anyone other than the manufacturer will not be recognized as a Warranty. Boards not recognized as a warranty claim will be repaired at the manufacturer's discretion and all costs for repairs as well as other disbursements will be the customer's responsibility. Neither the seller nor the manufacturer shall be liable for any injury, death, loss or damage, direct or consequential, arising out of the use or inability to use this product. Before use, the user must determine the relevant product for their needs before use and assume all risk and liability whatsoever in connection therewith.

Because more is more.

More features, more technical advancements, more style.

RIDE TRS

Attitude comes standard.

Not afraid to push your limits? This board has everything and it does everything. Channels, stringer, nose bulbs and TRS template. Pull in... lock your rail... and then smash that oncoming section. Step up....

Channels /Stringer /Nose Bulbs /TRS Template /Nose & Tail bumpers /2 Piece Tail

2-6 foot

H2 TRS

No time to waste.

Add stringer, add nose bulbs, add a 2 piece tail and a team designed template thats fast. This board draws perfect lines, and transitions to the lip quick for big inverts and air moves.

Channels /Stringer /Nose Bulbs /TRS Template /Nose & Tail bumpers /2 Piece Tail

3-6 foot

SABRE TRS

Mystical wave slayer.

Hand carved by silent monks in a hidden cave at the top of the Himalayas. True enlightenment comes from a full contoured deck that compliments your mystical wave slaying bat tail. Complete technicals and style!

Channels /Stringer /Nose Bulbs /TRS Template /Nose & Tail bumpers /Full Deck Contour /Hip Locks /Bat Tail

2-8 foot

TRS PRO

PRO-formance.

The latest edition to the Manta range is so good, team rider Dave Crowley ran off with our test board and wont give it back. Lucky for him he got some shots killing it on the new board! See below. The Diamond slick is just that good!

Channels /Stringer /Nose Bulbs /Diamond Slick /TRS Template /Nose & Tail bumpers /2 Piece Tail

Signature Model

The leader of the next generation of bodyboarders. Smooth lines, huge airs and fluid style.

"We spent alot of time developing my boards for this year. I'm stoked, these boards are awesome!!!"
JOHN SHOWELL

Rider: John Showell
Showell PP 41, EDGE fins.

Showell Signatures.

Martial arts madness.

If early morning slabs, late arvo air bowls and "Hidden Dragon" Kung Fu slaps are you're stable diet of daily chores your going to need something a little special. Introducing the redefined and remastered SHOWELL SIGANTURE series. Super high end combination of materials coupled with a precision template give you a board that will handle anything you've got.

Incorporating MANTAs' all new Diamond Slick technology (PE core only), FTC stringers for ridiculous recoil, surllyn slicks, nosebulbs, channels, nose and tail bumpers, 2 piece tail and top it all off with a funky skull'n'crossed bones..... These are the pinnacle!

FTC Stringers

Finger Tip Control.... is where you need it.

Subtlety is everything in high performance bodyboards and these new FTC Stringers offer a small change with big effects. They provide greater flex memory and control than standard flex stringers. The flex memory is right under your fingers where you need it.
